

# Meeting Minutes

## Cloud Computing Acquisition Forum (CCAF)\*

---

**\*These meeting minutes are Cloud ConFIG excerpts taken from the monthly CCAF**

### Meeting Logistics

**Date:** Wednesday March 23, 2016

**Time:** 11:00AM – 12:00PM

### Agenda

- GSA Cloud ConFIG Acquisition Vehicle
  - Quick overview and current status of the Cloud ConFIG contract
    - Draft solicitation underway
    - Draft RFP release FY16
    - Expecting vendor input to be solicited via Interact Site
  - Walkthrough of the Cloud ConFIG Interact Site

### Actions/Outcomes

#	Action Description	Action Owner	Target Completion Date	Status
1	Join the Cloud ConFIG Interact community to provide input and stay up-to-date on project developments <ul style="list-style-type: none"><li>● <a href="https://interact.gsa.gov/group/cloud-config-idiq">https://interact.gsa.gov/group/cloud-config-idiq</a></li></ul>	CCAF Members	4/20/2016	In Process

### Discussion Highlights

- Participants should register and become members of the Cloud ConFIG Interact community. Interact is a GSA collaboration tool that allows vendors to provide input on the contract and stay up-to-date on developments. The site can be found at: <https://interact.gsa.gov/group/cloud-config-idiq>

[idiq](#). Please reach out to Brian Kim (briank.kim@gsa.gov – please note added k after my first name) should you have any issues gaining access.

## Meeting Notes

- 

### GSA Cloud ConFIG Acquisition Vehicle

- The scope of the Cloud ConFIG project has not changed, but the number of lots has changed since the last CCAF meeting. The final number of lots has not yet been determined. There are currently two lots made up for cloud services and cloud enabling technologies. Both lots will offer all of the ancillary services required to implement and maintain a full cloud computing solution. The consolidation of lots was done based on discussions with Contracting Officers.
- The Cloud ConFIG now has an Interact Site (<https://interact.gsa.gov/group/cloud-config-idiq>), which is where interested parties should go to learn more and to collaborate. The Cloud ConFIG team will post content to Interact and request input from vendors. The first post was about the project scope. Future posts will detail background information and the contract lot structure.
- The Draft RFP will be released in FY16.
- The Cloud ConFIG team is working with OMB to create a workgroup of government agencies to provide input on the project. The workgroup is being co-led between GSA and DISA and is looking for participation from COs and technical people. Members of the CCAF recommended that the working group also involve representatives from the security community.
- The Contracting Officer for the Cloud ConFIG is Alex Wrisinger. He works in the Small Business GWAC center in Kansas City. The Cloud ConFIG team is also working with Richard Blake who is supporting the team as a Technical Adviser because of his experience and expertise with Alliant.
- All questions regarding the Cloud ConFIG can be sent to [CloudConFIG@gsa.gov](mailto:CloudConFIG@gsa.gov) or can be documented through the Cloud ConFIG Interact site.
